

Sabris

Innovative IT company with
a **friendly professional** approach

We provide system integration and long-term services in the CEE region via a multilingual support center and shared services center. Our focus is on professional consulting, business solutions and services that bring significant added value to companies, increasing their performance and prosperity.

We build long-term partnerships with customers based on open communication and mutual trust. This approach is epitomized in our corporate slogan: "friendly professional".

In our projects we use best practices and the industry expertise we have gained over many years of working with our customers.

It helps us understand companies' needs and offer them innovative solutions in line with the latest ICT trends and technology developments in the sector.

Our company has enjoyed long-term stability, and we aim to be a reliable partner and increase our market share. For these reasons we are continuously developing our portfolio, concentrating on improving the quality of the services we provide and expanding existing markets.

Sabris in figures

- 25** We have been operating on the ICT market for 25 years.
- 6** We have offices in Prague, Brno, Olomouc, Bratislava, Moscow and Ekaterinburg.
- 250** The group employs nearly 250 staff.
- 3** We are a certified partner of SAP, OpenText and Microsoft.
- >200** We currently have over 200 customers.

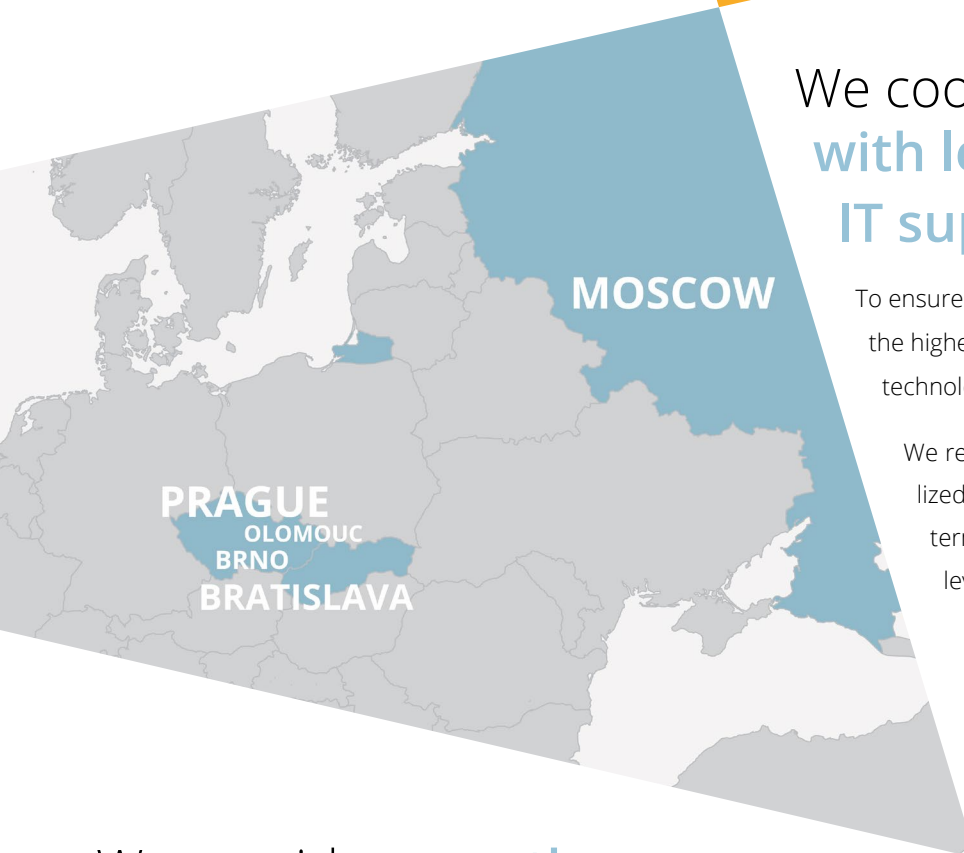

Our competencies

We focus on innovative and industry-oriented solutions, especially for the areas: Food & Process Industry, Automotive, Retail, Logistics.

Together with our customers, we have already implemented several SAP HANA projects. We have proven SAP competencies in Business Analytics and Human Capital Management.

We provide innovation on SAP and OpenText platforms for supporting digital transformation at companies.

For companies using MS SharePoint we offer TreeINFO, an integrated ECM extension for managing documents and processes.

We cooperate with leading international IT suppliers

To ensure that we provide our customers with services of the highest quality while offering them state-of-the-art technology, we work with the world's leading IT suppliers.

We regularly attend educational programs and specialized training at these partners and have received internationally - recognized certification at the highest level.

opentext™

We provide more than IT services

We act as a general supplier of comprehensive solutions for customers. This means that the customer only communicates with a single partner, who guarantees high-quality work and professionalism in the supply and integration of parts of the complete system – all while respecting cost efficiency.
